Aleem Juma - Technical Committee

After his Computer Science degree Aleem spent the next 15+ years in technology audit and consulting and is currently a Senior Manager in Internal Audit at Ontario Power Generation, responsible for, among other things, the technology and innovation portfolios. His passion for technology, analytics and machine learning led to Aleem advising on AI strategy and various AI projects across the organization. Aleem also volunteers for a community educational institution where he leads a team working on reporting and analytics for program evaluation.
